

## CREAMHILL SCHOOLS – MULAGO

---

### P.5 SCIENCE WORK

1. Why bees are called social insects?

---

2. How is a pollen basket important to a worker bee?

---

3. What do bees use to repair cracks on a beehive?

---

4. Give one method of honey extraction.

---

5. How is a queen excluder useful in a top bar hive?

---

6. Write down one enemy of bees.

---

7. List down any one product got from bees.

---

8. What is a swarm?

---

9. Which type of life cycle do bees undergo?

---

10. Define swarming.

---

11. List any three killer diseases in Uganda that are prevented by immunisation.

(i) \_\_\_\_\_

(ii) \_\_\_\_\_

(iii) \_\_\_\_\_

12. Identify the organization responsible for the immunization of children in Uganda.

---

13. What is immunity?

---

---

14. What information does a parent get from an immunization card?

---

15. Identify the immunizable disease that makes children lame.

---

16. What is another name for whooping cough?

---

17. What is first aid?

---

---

18. Suggest any one way how cholera can be controlled in our community.

---

19. How does mulching control soil erosion in the garden?

---

20. Why do bees visit flowers?

---

21. Define sanitation.

---

---

22. State any one duty of a worker bee.

---

23. Name any one disease that can break out in the family without a latrine.

---

24. How are trees important to people in the environment?

---

25. Why should people boil water for drinking?

---

26. Name the form of energy that enables us to see.

---

## SECTION B

27. Below is a structure at a weather station. Use it to answer the questions that follow.

(a) Name structure showed above.

---

(b) Write any two weather instruments kept in the above structure.

(i)

---

(ii)

---

(c) Why is the structure showed above painted white?

---

28. Point out the main natural source of water in the environment.

---

b) How is the sun important in the water cycle?

---

c) Which plant process contributes towards rain formation?

---

d) Name the instrument used to measure the amount of rainfall received in an area.

---

29. (a) What is food security?

---

---

b) Name the class of food that is first digested in the mouth.

---

c) List down two diseases of the digestive system.

(i)

---

(ii)

---

30. (a) What is photosynthesis?

---

---

b) Name two raw materials needed for photosynthesis to take place.

(i)

---

(ii)

---

c) How is chlorophyll important during photosynthesis?

---
